---

On 25 July 2024, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender, ...

Optimized for mid-size factories, desert solar farms, and hybrid grid substations. With 140kW solar and 215kWh battery in a 40ft container, it handles heavier industrial loads in harsh outdoor ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

The deadline for submission of standalone battery storage project proposals was December 5, 2024. The Bulgarian Ministry of ...

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. The Exeron X-BESS is one of only six ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

The initiative will place Bulgaria on the global map for battery-based energy storage technologies, in line with the goals set in the NZIA for secure and sustainable technology ...

The deadline for submission of standalone battery storage project proposals was December 5, 2024. The Bulgarian Ministry of Energy announced on December 6 that it has ...

The Shanghai-based manufacturer has installed 90 SigenStacks at a solar project in Malko Tarnovo, Bulgaria, near the ...

The Shanghai-based manufacturer has installed 90 SigenStacks at a solar project in Malko Tarnovo, Bulgaria, near the Turkish border. Each unit features a 110 kW hybrid ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, ...

This significant milestone marks the system as Bulgaria's largest BESS project to date, jointly developed by Kehua and Solarpro, the largest energy EPC company in Eastern Europe and a ...

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. ...

Production has begun at a battery energy storage system (BESS) factory designated as a project of strategic importance by the European Commission (EC) due to its ...

Production has begun at a battery energy storage system (BESS) factory designated as a project of strategic importance by the ...
