---

The region's most ambitious solar panel project is at the Caribbean Plant in the Dominican Republic, which has 2,667 panels that generate 62,000 kilowatts per month.

The region's most ambitious solar panel project is at the Caribbean Plant in the Dominican Republic, which has 2,667 panels that ...

Discover the Matrisol renewable energy project, based on solar technology, located in the municipality of Cabrera, on the north coast of the Dominican Republic.

EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and experience to get your next project designed and delivered.

Spanish construction group Elecnor SA (BME:ENO) has chosen China's LONGi Green Energy Technology Co Ltd (SHA:601012) ...

According to LONGi, this is the first deployment of its Hi-MO 9 modules in the Dominican Republic. The modules feature n-type HPBC back contact cell technology and ...

The selection of the new Hi-MO 9 modules underscores their superior performance and efficiency, aligning perfectly with the project's ...

LONGi and Elecnor Group today announced the signing of a new ground-mounted photovoltaic (PV) plant project in the Dominican Republic. This significant collaboration will ...

The selection of the new Hi-MO 9 modules underscores their superior performance and efficiency, aligning perfectly with the project's demanding power generation and ...

LONGi, a global leader in solar technology, has been selected by Spain's Elecnor Group to supply its newest Hi-MO 9 modules for a 60 MW ground-mounted photovoltaic (PV) project in the ...

Spanish construction group Elecnor SA (BME:ENO) has chosen China's LONGi Green Energy Technology Co Ltd (SHA:601012) to supply solar modules for a 60-MW ...

Discover the Matrisol renewable energy project, based on solar technology, located in the municipality of Cabrera, on the north coast of the ...

Since work began in 2023, our team has led the development of this ambitious project, which has an installed capacity of 64.7 MWp and almost 99,000 solar panels, capable of generating more ...
