We build and upgrade ground-based communications and mission management systems that are responsible for receiving and routing communications and flight instructions from Earth to ...

All small satellites use some form of a ground segment to communicate with the spacecraft, whether it be hand-held radios using an amateur frequency, or a large dish pulling ...

Orbit's ground station solutions for tracking LEO and MEO satellites deliver the high performance and accuracy needed for optimal satellite communication. We support multiple frequency ...

It houses radio frequency, power distribution, and networking setups, essential for satellite tracking and communications in space. Equipped ...

Explore the fundamentals of satellite ground stations, including their architecture, receiving and transmitting processes, and key specifications.

When a ground station successfully transmits radio waves to a spacecraft (or vice versa), it establishes a telecommunications link. A principal telecommunications device of the ground ...

Ground station equipment and hardware form the backbone of communication infrastructure between Earth and satellites. From ...
