The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven ...

Africa REN, a leader in sustainable infrastructure development in Sub-Saharan Africa, has announced the commercial commissioning of Walo Storage, the first photovoltaic ...

“Our solar microgrid project in Thiès reduced diesel consumption by 80% using Senegal-assembled battery systems.” - Ousmane Diallo, Renewable Energy Project Manager

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

The Emerging Africa Infrastructure Fund (EAIF), a Private Infrastructure Development Group (PIDG) company, has committed to a EUR11.5 M loan to develop the first ...

The installation facilitates the increasing integration of solar energy while avoiding the emission of 26,600 tons of CO₂ annually--the equivalent of the yearly emissions of over ...

Lithium-ion battery storage containers offer a safe and efficient way to store and charge lithium batteries, ensuring their longevity and minimizing risks associated with fire, explosion, and ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in
