Pluto is found in the icy outer edges of our Solar System in what is called the Kuiper Belt. While Pluto is too small to be considered a planet, it is the largest object in the Kuiper Belt.

Our small off-grid solar kits are designed for smaller structures like cabins, treehouses, and tiny houses. These kits are designed for lower wattage ...

The Moon has no atmosphere to support life, absorb solar radiation, or burn up incoming meteoroids, which is why it's covered in craters

Astronomy is a branch of science that researches everything in the universe beyond our Earth's atmosphere. This includes things like other planets in our solar system, moons, stars, and ...

Find pre-bundled solar system kits designed for small homes, cabins, sheds and more at The Inverter Store. Create your off-grid solar system today.

Jupiter, also known as the Giant Among Giants for its massive size, is the fourth outermost planet in our Solar System. It joins Neptune, Uranus, and Saturn as one of the giant planets. Giant ...

In 1900, the planets in our solar system were known to have 22 natural satellites, or moons. The number of known moons has now quadrupled and is still increasing. Likewise, ...

Small solar system bodies--along with the Sun, planets, and dwarf planets--help make up our Solar System. Small solar system bodies include things like comets, asteroids, ...

The Solar System, located in the Milky Way Galaxy, is our celestial neighborhood. Our Solar System consists of 8 planets, several dwarf planets, dozens of moons, and millions ...

Comparing the atmospheres of all the solar system's planets to those found on distant worlds might help future scientists refine their ideas of how planetary systems form and ...

What role does the Sun play in our Solar System? A big one--both in size and importance. Our Sun is a 4.5 billion year old star at the center of our Solar System. It's gravity holds our Solar ...

Our solar system has four giant planets: Neptune, Uranus, Saturn, and Jupiter. Giant planets are much larger than Earth--they are unimaginably huge, stunningly beautiful, and sometimes a ...
