-----

The SIPS includes the battery, built at the site of a shuttered coal-fired power station at Lake Munmorah on the NSW Central Coast, ...

The ambitious project, led by Australia's Akaysha Energy, features an 850-megawatt/1,680-megawatt-hour battery energy storage system (BESS) ...

The proposed AU\$1 billion (US\$650 million) 4-hour duration BESS will be located on land it owns near Mount Piper, a 1,400MW black coal-fired power plant to the northwest of ...

Sydney's biggest water storage behind Warragamba dam, Lake Burragorang is proposed as the site for a pumped hydro project that could generate enough electricity to up to ...

Sydney's biggest water storage behind Warragamba dam, Lake Burragorang is proposed as the site for a pumped hydro project that ...

The Liddell Battery Energy Storage System (BESS) Project involves the development of a 500MW, two-hour duration grid-scale battery in New South Wales (NSW), ...

Located about 100km north of Sydney and approximately 25km south of the retiring Eraring coal-fired power station, the Waratah Super Battery ...

The Liddell Battery Energy Storage System (BESS) Project involves the development of a 500MW, two-hour duration grid-scale ...

The ambitious project, led by Australia's Akaysha Energy, features an 850-megawatt/1,680-megawatt-hour

battery energy storage system (BESS) that will act as a giant shock absorber, ...

The Waratah Super Battery Project involves the construction of one of the world's largest battery energy storage systems. It acts as a shock absorber in the event of power ...

Located about 100km north of Sydney and approximately 25km south of the retiring Eraring coal-fired power station, the Waratah Super Battery resides in a 138,000 square metre site (over 8 ...

The proposed AU\$1 billion (US\$650 million) 4-hour duration BESS will be located on land it owns near Mount Piper, a 1,400MW black ...

One of the most powerful energy storage batteries in the world has been turned on. Operating at 50 per cent capacity, the Waratah Super Battery is designed to back up NSW's ...

The Smithfield Battery Energy Storage System (BESS) is a 65 MW / 130 MWh battery system currently under construction. The project is located ...

The SIPS includes the battery, built at the site of a shuttered coal-fired power station at Lake Munmorah on the NSW Central Coast, about 100km north of Sydney, control ...

New South Wales electricity distributor Ausgrid is proposing two, 200 MW / 400 MWh battery energy storage systems to be located in the north coast regional city of ...
